Education

Modern Education Society College of Engineering   Expected July 2026
Bachelor of Engineering in Automation & Robotics   *Pune, Maharashtra*
- **Relevant Coursework:** Robotics IIT-K(NPTEL) & CS50P (Python)

Projects

Manipulator |
- Built a 5-DOF robotic manipulator with teleoperation using gesture control. Utilizes ESP32 for wireless communication and flex sensor for hand tracking. The project explores human-robot interaction through intuitive control gestures.

Python |
- Built an regex Transcription application which transcribes a YouTube Video.

Icon Pack | *Figma*
- Designed an Icon Pack inspired by Nothing OS.

Internship

- Worked as a Copywriter at cryptoprism.io which provides a dex screener Saas product for cryptocurrency.

Technical Skills

Languages: Python, MATLAB.

Extracuricular Courses

- From Big Bang to Black Holes from Coursera, Tokyo University. (Coursera)

- CS50 Introduction to Python by Stanford University.

- CS50 Introduction to Artifical Intelligence by Stanford University.

Social Engagements

Co-founder: Avinya, club formed to work on projects, participate in hackathons, MESWCOE Pune
Tech Lead : Served as Technical Head of American Society of Mechanical Engineering -Student Chapter at MESWCOE, Pune.
Organisor: Organized various events and won multiple competitions as a keynote speaker.

Hobbies

Reading: Non-fiction, Evolution, Physics, Philosophy, Astronomy, Sci-Fi.
Music: Instrumental, OSTs.
Writing: Blogs, Poetry, Journals.
